"A certain type of man," he said, "goes about declaring that we dominant races civilize the savage out of existence—that we do them harm instead of good.

"Well, as a matter of fact, if these cavallers knew what I know about some tribes, they would speak less confidently. Some tribes are so debased that to do them anything but good would hardly be possible. They are, in fact, just like the ugly woman who visited the beauty doctor.

"This woman was ugly in every feature, but her nose was particularly ugly. That, no doubt, was why she desired the beauty doctor to begin on it.

"'I am willing,' she said, 'to pay you liberally, doctor, but I demand in return substantial results. We will start with my nose. Can you guarantee to make it ideally beautiful?' "The doctor, after looking attentive-

ly at the woman's nose, replied: Well, madam, I can't say as to a mallet."

We see here a demand on the ministers of God, that they endorse and help build up the strike-producing, boycotting and violent American Fed eration of Labor. Think of the man of God who teaches brotherly love being covertly ordered to praise and help get new

Think of the thousands of women they first paid fees to the trust manmade widows and the increasing thousands of children left fatherless by the pistol, club, dynamite and boot ngers. heel of members of this Labor Trust. Any one who recalls the countless murders done in the multitude of strikes in the past few years will agree this is no exaggeration,

Take just one as an Illustration: There were some thirty men murdered and over 5000 bruised and maimed in the Chicago teamster's

Then remember the homes blown up or burned. The families hounded, the rioting, burning of street cars, wrecking of trains and attempted or successful killing of passengers.

The general disturbance of industry and the thousands of dollars forced from tax payers to pay extra police, sheriffs and militia to protect, even in a feeble way, the citizens from the mobs of members of the American Federation of Labor.

Then you will realize why the great

peace-loving majority of over 80 million Americans protest against the growth of this crime-tainted organization comprising perhaps one and onehalf million men, of which it is estimated at least seven-tenths are peaceloving citizens and are members by coercion and are not in sympathy with the three-tenths who have gained control and force their methods. We find that a few designing men

have selzed control of the American Federation of Labor, just as some shrewd capitalists have secured control of some railroads and other interests and are now twisting and turning them into machines for personal profit and fame.

These men cunningly plan to force workmen to join and pay 25 to 75 cents a month in fees. Various methods are used to "induce" workmen to join.

First they talk of the "tyranny of capital" making slaves of workmen. Then they work up enthusiasm about the "brotherhood of man" and other talk which experience has shown excites the emotions of workmen and they are induced to join and pay fees to the leaders.

The 6000 workmen in Battle Creek are, as a rule, free from the dictates of the great Labor Trust and still get the highest wages in Michigan. they had yielded to the smooth talk of the agents of the trust and joined. they would pay in fees from \$1250.00 to \$2000.00 a month to the big trust and be subject to strike orders any

hard and long to harness them. The trust has sent small bales of money and last winter 18 "organizers" to tie up Battle Creek. They hired halls, gave picture shows, smokers, etc., as an investment, looking to rich returns when they succeeded in having them tied hand and foot.

But they failed and the last of these "organizers" left Battle Creek on May 1st saying "It's no use." The workmen knew the record of this great trust and formed their own association to protect their rights and also to protect them from the big

Many and many an honest workman

This Trade Association has evolved from the experience of the past and his fellows to rise and throw off the yoke of Gompers, et al. But, as one ism at the present day writes, "At every convention of the American Federation of Labor, strong opposition comes up but at the critical moment the impassioned orator appears and most dramatically puts the spot light on the leader and covers him with a mawkish film of 'martyrdom' and the emotional delegates yell in delight, forgetting the instructions of the peaceful workingmen at home who desire to free themselves from the odium of membership under the

great advocates of strike, boycott, violence and hate." So we see the unequalled insolence with which these trust leaders propose to "induce" ministers to pull their chestnuts from the fire preaching modern aggressive and violent labor trust methods.

There is a better way to secure justice for workers, as will appear further along. Just a little diversion here. I am charged with having first

brought to the attention of the public some years ago, the name "Labor Trust. A trust is a combination of men or organizations for the purpose of selling their product at a profit and restricting production to effect it. We will say a large Oil Company

The merchant, lawyer, school teach er, doctor, clerk, farmer and workman rebels against any forcible stopping of trains, boats, street cars, or factories, for the prosperity of the community is entirely dependent on steady continuance of these things. Men don't like strikes, boycotts, injured workmen or burned cars and factories.
